

FOSTERS NEEDED

Colorado Greyhound Adoption needs your help!
Will you share your home?
CGA is always in need of new loving foster families.

When greyhounds leave their kennels to retire from being “professional athletes” they need to be placed in temporary foster homes until we find them a permanent “forever home”. In their foster homes, they get to learn what it's like to be a pet. They get valuable exposure to things like stairs, sliding glass doors, doorbells, and other things they have never known before.

If you have ever had a greyhound yourself, or have had the pleasure of spending time with one, you already know what gentle, caring animals they are. So please share a bit of your time to help transition these “45 mile-per-hour couch potatoes” from the racetrack to their retirement in permanent, loving homes.
